Dear Peter

### Hearing Session 11

- 1) Redraft of Policy DM3 : Landscape
- 2) Approach to carbon soils in Powys

I am grateful to Peter Ogden of CPRW for providing me with a copy of that organisation's documents. I am happy to endorse them on behalf of Welsh Water Elan Trust.

I seek only to add evidence in respect of one small matter relating to the historic/cultural layer of LANDMAP. For many years TRYSOR has surveyed on behalf of RCAHMW many areas in the uplands of Wales – not least the Elan Estate and a map in two sections is enclosed showing the sites which have been recorded as a result of these endeavours. You will note that they go far beyond in number those registered as archaeological sites.

This letter is written purely with regard to the request for observations on DM3 and the carbon soils document provided by CPRW; and does not undermine any subsequent statement that may be produced 21 days before the RE hearing.

Yours sincerely

[REDACTED]  
N.M. ROLT
